Why Companies **Trust** WTA.

Global tax rules change faster than ever, creating risks in compliance, planning, and reputation. WTA goes beyond static research – with treaty analysis, calculators, and project tools, it turns complex international tax rules into actionable insights, helping enterprises stay compliant and plan with confidence.

Treaty Analysis

Withholding tax info, PE articles, residence rules, and EOI clauses.

Calculators

Model withholding rates, optimise income streams, and compute effective CIT.

Forms & Regulations

Compliance forms available in original & English versions, backed by statutory excerpts.

Global News

Real-time updates from RegFollower, searchable by structured taxonomy.

Projects & Tools

Store research, track outputs, and use templates/questionnaires to support planning.

Global Minimum **Tax/Pillar 2 Modelling.**

The P2 Simulator enables users combine national tax rules information in WTA with company data to produce calculations of income allocable under the Pillar 2 rules. The calculations are based on financial data provided by the users with the help of a standardised template. The product also provides the forms and other templates needed to comply with the Pillar 2 rules and enables visual representation of Pillar 2 tax positions.

Calendar View.

A centralised calendar that tracks key tax and transfer pricing deadlines, regulatory events, and compliance timelines across jurisdictions.

The screenshot displays two views of the World Tax Analyzer interface. On the left is the 'Calendar' view, and on the right is the 'Agenda' table view.

Calendar View: Shows a monthly calendar for March 2026. The left sidebar contains filters for 'Date Range' (2026-01-19 to 2027-01-18), 'Filter By' (Entity selected), and 'Event Types' (CIT Return, CbC Report, TP Return). The calendar grid shows dates from 1 to 31, with a '4 more' notification on March 31st. A search bar is located at the top right of the calendar area.

Agenda Table View: A table listing tax and compliance events. The columns are: Action, Tax Residence, Nature of Compliance, Description, Due Date, and Applicable Form. The table lists events for various jurisdictions including Brazil, Canada, Germany, Ghana, Poland, Saudi Arabia, and Singapore.
